

# CONTENTS OF VOLUME 327

Editorial. Hundred Years <i>Arch. int. Pharmacodyn</i> . . . . .	1
Influence of Adenosinergic Drugs on the Epileptiform and Neurotoxic Effects of N-methyl-D-Aspartate: Comparison with the Effects of MK801. C. Frank, A. Scotti de Carolis and S. Sagratella . . . . .	3
Cardiovascular Studies of Phenylpropanolamine. J. Vick, L. Weiss and S. Ellis. . . . .	13
Vulnerability to Ventricular Fibrillation Related to Ischaemia: Comparison of the Acute Effects of $\beta$ -Blockers and Calcium Antagonists. J. F. Aupetit, Q. Timour, M. Freysz, J. Loufoua-Moundanga, S. Omar, G. Chevreil and G. Faucon . . . . .	25
Bopindolol and its Metabolite 18-502 Attenuate Regional Myocardial Acidosis during Partial Occlusion of the Coronary Artery in Dogs. Y. Abiko, H. Gotoh, T. Yokoyama, T. Abiko, H. Hashizume and K. Akiyama . . . . .	40
2-(2-Aminoethyl)-Quinoline (D-1997): a Novel Agonist at 5-Hydroxytryptamine <sub>1</sub> -like Receptors in the Canine Basilar Artery. J. A. Terrón, F. J. López-Muñoz, E. Hong and C. M. Villalón . . . . .	56
Species and Strain-Related Differences in the Expression and Functionality of $\beta$ -Adrenoceptor Subtypes in Adipose Tissue. I. Van Liefde, A. Van Ermen, A. van Witzenburg, N. Fraeyman and G. Vauquelin . . . . .	69
Discovery and Characterization of an Inhibitory Angiotensin Receptor in the Guinea-Pig Ileum. C. F. C. Smith, K. J. Taylor and E. M. Whiting. . . . .	87
Influence of Muscle Activity on the Actions of Chloride Channel Blockers in the Mouse Skeletal Muscle. W.-M. Fu, S.-H. Yang, S.-H. Liu and S.-Y. Lin-Shiau . . . . .	96
Effects of Eugenol on Excitation-Contraction Coupling in Skeletal Muscle. J. H. Leal-Cardoso, A. N. Coelho-de-Souza, I. T. Souza and I. M. B. Figueiredo . . . . .	113
N-Ethylmaleimide Increases the L-Type Calcium Current in Guinea-Pig Ventricular Myocytes. K. Mubagwa and A. J. Pappano . . . . .	125
Evidence that Chloroethylclonidine Can Contract the Dog Saphenous Vein via a Protein Kinase C-Dependent Mechanism. J. P. Nunes and A. Mota . . . . .	142
Role of Endotoxin in L-Arginine-Induced Relaxation of Rat Thoracic Aorta Mediated by Muscle-Derived Nitric Oxide. H. Moritoki, S. Takeuchi, W. Kondoh, T. Hisayama, M. Hashizume and K. Noda . . . . .	152
Direct Vascular Smooth Muscle Contractile Effect of Cyclosporin A and its Vehicle in Rabbit Isolated Arteries. E. Yariş, M. Tuncer, S. O. Kayaalp and M. İlhan . . . . .	166
Characteristics of K <sub>1</sub> 769, a Novel Vasodilator, in Isolated Rat Aorta. T. Kashiwabara, T. Nakajima, H. Kasai, S. Nakajima, T. Izawa and N. Ogawa . . . . .	175
Cardiovascular Effects of KRN2391 in Anesthetized Dogs: A Comparison with Cromakalim and Nitroglycerin. S. Kaneta, T. Yokoyama, H. Izumi, T. Izawa and N. Ogawa . . . . .	184
Comparison of Coronary Dilating Effects of K <sub>1</sub> 769, a New K Channel Opener of the Pyridinecarboximidamide Type, and Nifedipine in Anesthetized Dogs. T. Yokoyama, S. Kaneta, A. Miwa, Y. Tanaka, H. Izumi, T. Izawa and N. Ogawa . . . . .	194
Fantofarone (SR 33557): Cardiovascular Actions in Anesthetized Dogs. G. Barthélémy, P. Chatelain and A. Manning. . . . .	204

Synaptosomal GABA Release as Influenced by Valerian Root Extract—Involvement of the GABA Carrier. <i>M. S. Santos, F. Ferreira, A. P. Cunha, A. P. Carvalho, C. F. Ribeiro and T. Macedo</i> . . . . .	220
Resiniferatoxin Provides Further Evidence for a Role of Capsaicin-Sensitive Sensory Neurons in the Control of the Kidney Function. <i>M. Perfumi and M. Massi</i> . . . . .	232
<i>In Vivo</i> Stimulation of Insulin Release by Succinic Acid Methyl Esters. <i>D. Vicent, M. L. Villanueva-Penacarrillo, F. Malaisse-Lagae, V. Leclercq-Meyer, I. Valverde and W. J. Malaisse</i> . . . . .	246
Effect of Cumulative Doses of N <sup>G</sup> -Nitro-L-Arginine Methyl Ester on Coronary Blood Flow of Anesthetized and Conscious Dogs. <i>T. Matsunaga, K. Okumura, H. Ishizaka, R. Tsunoda and H. Yasue</i> . . . . .	251
Protective Effects of a Novel Calcium Antagonist with Platelet-Activating Factor-Antagonistic Action, F-0401, against Ischemic Brain Damage. <i>T. Chen, H. Kato, H. Ban, N. Nakata, X.-H. Liu, Y. Itoyama and K. Kogure</i> . . . . .	266
Cardioprotective Effects of Hydrolyzed Bopindolol against Contractile Dysfunction Produced by Coronary Stenosis and Reperfusion in Dogs. <i>K. Noguchi, Y. Aniya, Y. Ojiri, T. Chibana, T. Matsuzaki, N. Shiroma, K.-F. Fong, M. Uza and M. Sakanashi</i> . . . . .	279
Antihypertensive Effects of a New Transdermal Delivery System for Clonidine (M-5041T) in Spontaneously Hypertensive Rats. <i>R. Ishii, T. Naruse, T. Tagawa, T. Yamahata, S. Dote, K. Hamada, T. Ishida, K. Funabiki and K. Namba</i> . . . . .	294
Effects of MPC-1304, a Novel Calcium Antagonist, on Stroke-Prone Spontaneously Hypertensive Rats. <i>M. Niwa, K. Shigematsu, T. Maeda, M. Fujimoto, K. Yamashita, Y. Kataoka and K. Taniyama</i> . . . . .	309
Potassium Channel-Opening and Vasorelaxant Profiles of a Novel Compound YM099 in Rat Isolated Portal Vein and Rabbit Isolated Aorta. <i>W. Uchida, Y. Hirano, Y. Shirai, T. Taguchi, N. Masuda, K. Shibasaki, S. Hirano, Y. Matsumoto, R. Suzuki, I. Yanagisawa, N. Satoh and T. Takenaka</i> . . . . .	330
Relaxation of Human Uterine Artery in Response to Pinacidil: Predominant Role for ATP-Dependent Potassium Channels. <i>A. Jovanović, Lj. Gojković, T. Kažić, L. Grbović and I. Tulić</i> . . . . .	344
Origin of Post-Depolarization Hyperpolarizations in a Grease-Gap Recording Preparation. <i>G. R. Fanning, N. Ganesalingam and S. N. Davies</i> . . . . .	355
Effects of TMB-8, a Putative Calcium Antagonist, on Neuromuscular Transmission and Muscle Contractility in the Mouse Phrenic Nerve-Hemidiaphragm Preparation. <i>Y. N. Singh, M. A. Lamberty, A. Johnson and T. J. Adam</i> . . . . .	363
Contents of Volume 327 . . . . .	375
